

CARE'S GOAL:

To support children and youth in social, emotional, and academic competencies.

CARE'S APPROACH:

To provide a range of services for children, families, schools and other child-focused agencies.

- ▶ To employ child-focused, evidence-based practices.
- ▶ To utilize a functional approach to solving problem behavior using Applied Behavior Analysis (ABA) and Positive Behavior Support (PBS).

CARE'S TEAM:

- ▶ Is a group of multidisciplinary experts working together with a common vision.
- ▶ Are leaders in the field with extensive experience working across all grade levels and environments including:

- Board Certified Behavior Analysts
- Child and Family Therapists
- Clinical Psychologists
- Educators
- Evaluation and Assessment Experts
- Inclusive Education Practice Leaders
- Learning and Instructional Designers
- Special Education Directors
- Speech-Language Pathologists

In March 2014, the CDC released new statistics stating that the percentage of Autism Spectrum Disorder has risen to 1 in 68 births in the United States, and 1 in 42 boys.

FEEDBACK FROM THE FIELD

You have helped change his life. Not only with the therapy, but most definitely with the school and my understanding of how the school works. CARE is awesome!

- Tera, OK

CARE has made such an important difference in our lives and can never be replaced. You saved our lives.

-Ginger, New Mexico

I worked with Dr. Jan Schaefer and CARE for six years. The consultants are professional, positive and resourceful with the best interest of the child in mind at all times.

I was always encouraged to email between visits if I had questions or concerns. Emails were addressed promptly and were helpful.

I highly valued the resource provided by CARE and feel that I grew professionally working with this highly skilled group.

- Jana Firkins, Teacher, New Mexico
